16 August 2012

On behalf of Ernest Bai Koroma President of Sierra Leone,

Capital Alternatives Limited and African Land Limited

This is to certify that the Government of Sierra Leone recognises Capital Alternatives and the African Land project as part of our drive to improve the Sierra Leonean economy through FDI (Foreign Direct Investment) and an effort to be part of the growth plan and vision for the next 50 years. We continue to pledge our support for Capital Alternatives and African Land as they continue to show commitment to improving the lives of all Sierra Leoneans through their agricultural investment project and the expansion of land under high yielding rice cultivation.

Yours Sincerely

Edward M. Turay
High Commissioner
