Subject: Herakles organised first ambush against SEFE along Mundemba-Toko road.

 Message  Herakles_ambush.pdf (300 KB)

Dear All,

This incident to place as SEFE was take the report to see the family that lost a member and other victims as a result of Herakles unconventional and hasty mobile operation in the area without authorisation from the ministry of Public Health. This mobile medical operation was unplanned and unilaterally introduced by Herakles, again without local people's consent.

Herakles carried out this operation in order to improve their fast eroding popularity in the area. Due to lack of proper planning by Herakles we have started counting casualties of this project.

Best regards,

Nasako Besingi.
